PROFILE

Hands-on architect with **16+ years building products with Python and 6+ years of Rust**. I build production systems and reasoning tools, with experience in distributed systems, mobile security and airline retailing. Seeking hands-on symbolic and neurosymbolic engineering work, integrating Nibli where it solves a concrete problem or contributing to an existing reasoning stack.

SELECTED EXPERIENCE

Technical Architect · STGI · 2026–present

Principal Architect · NuFlights · 2023–2026
Rewrote the airline-retailing platform's NDC adapter from Python to Rust.

Principal Architect · Colligence Research · 2023–2025
Built a distributed WebRTC media-server MVP in Rust.

Software Architect · Appknox · 2022–2023
Built a Rust microservice generating CycloneDX SBOMs from iOS/Android binaries.

CTO · Nitimis · 2018–2023

VP Engineering · Reckonsys · 2019–2022

Tech Lead · Appknox · 2014–2017
Built the mobile-security platform.

Software Engineer · Tataatsu / LaunchYard · 2012–2014

OPEN-SOURCE REASONING WORK

Nibli · Rust symbolic reasoner · MIT OR Apache-2.0
Built the parser, first-order logic compiler and inference engine; verdict-only and evidence-producing APIs, proof traces, retraction and explicit unsupported and resource outcomes. Differential checks against Vampire and clingo.
Native, browser and WASI builds. WASI v0.1.0 component (3 Aug 2026): 1,379,983 bytes, excluding runtime and application.
Demo: https://dhilipsiva.dev/nibli/
Playground: https://dhilipsiva.dev/nibli-playground/

Lucy · https://dhilipsiva.dev/lucy/ · Agent memory and identity
Built persistent identity, attributed Nibli memory and Ed25519-signed peer sync; Rust CLI releases for Linux, macOS and Windows; WebAssembly room.

The Rights Nobody Has to Earn · Executable policy modelling
Encoded policy assumptions and regression-tested scenarios in Nibli, with a within-project clingo cross-check.

FORTHCOMING BOOK

Author of **Ultimate Neuro-Symbolic Reasoning for AI Engineers** (Orange AVA), scheduled for December 2026; Nibli is the running case study.

Open to full-time, part-time and contract work, including scoped paid projects.
Remote preferred; willing to relocate for the right role, depending on compensation.
